# What to Expect

Acro Fit has created its own specific progression based curriculum design that safely trains campers and meets them at their own skill level. Our progression based design teaches beginning basic gymnastics fundamentals up to advanced recreational gymnastics skills. To achieve this goal, students are broken into age and ability levels for event training and skill specific clinics. Our training format encourages the confidence "to try" from each camper. Campers also participate in various enrichment activities that develop friendships, teamwork, and creativity.

# Themed Fridays
